

PROBABILITY – 25 marks
Name: _____

QUESTION	ANSWER	MARKS						
1. Write an example of an event that is <u>unlikely</u> to occur today.		1						
2. Draw a line to match each word to a place on the number line.		1						
<div><div><div><div><div><div></div><div>$\frac{1}{10}$</div></div><div><div>$\frac{2}{10}$</div></div></div><div><div>$\frac{3}{10}$</div></div><div><div>$\frac{4}{10}$</div></div></div><div><div>$\frac{5}{10}$</div></div><div><div>$\frac{6}{10}$</div></div></div><div><div>$\frac{7}{10}$</div></div><div><div>$\frac{8}{10}$</div></div></div> <div><div>$\frac{9}{10}$</div></div> <div><div>1</div></div> <div><div>certain</div><div>even chance</div></div>								
3. List the sample space for a 6-sided die.		1						
4. A cheer squad has 10 t-shirts. Each shirt has ONE of the letters of MOOLOOLABA printed on it. A cheer squad member takes a shirt randomly from the box they are kept in. What is the chance that the cheer squad member takes one of the shirts with an “O” on it?		1						
<div><div>1 in 10</div><div>1 in 5</div><div>2 in 5</div><div>4 in 5</div></div> <div><div><input type="radio"/></div><div><input type="radio"/></div><div><input type="radio"/></div><div><input type="radio"/></div></div>								
5. A bag contains counters in the following colours:		1						
<table><tr><td>Blue</td><td>8</td></tr><tr><td>Yellow</td><td>5</td></tr><tr><td>Red</td><td>9</td></tr></table> If a counter is drawn at random, find the probability that it is not yellow .		Blue	8	Yellow	5	Red	9	
Blue	8							
Yellow	5							
Red	9							
6. Look at the spinner to answer the question.	What is the probability, as a fraction, that the spinner will land on a vowel?	1						
<div><div><div><div><div><div></div><div>A</div></div><div><div>A</div></div></div><div><div>B</div></div><div><div>C</div></div><div><div>E</div></div><div><div>E</div></div><div><div>E</div></div><div><div>F</div></div></div></div><div><div>(HINT: Vowels = A, E, I, O, U)</div></div></div>								

<p>7. Use the spinner to answer the questions.</p> 	<p>a) P (I will spin a red) = _____ %</p> <p>Complementary event:</p> <p>b) P (_____) = _____</p>	<p>2</p>
<p>8. Rachael asked <u>100 coffee drinkers</u> whether they like milk or sugar in their coffee.</p> <p>Using the diagram below to answer the questions:</p>  <p>a) How many people like milk? _____ a)</p> <p>b) How many people like sugar? _____ b)</p> <p>c) How many like sugar but not milk? _____ c)</p> <p>d) How many like milk and sugar? _____ d)</p> <p>e) How many people don't like milk or sugar with their coffee? _____ e)</p>		<p>5</p>

<p>9. The chance of Year 8 receiving their laptops this week is 72%.</p> <p>What is the chance that Year 8 will not receive their laptops this week?</p>		1
<p>10. Decide whether the event is 'mutually exclusive' or 'non-mutually exclusive':</p> <p>a) A number card will be chosen. A spade will be chosen.</p> <p>_____</p> <p>b) A red card will be chosen. A black card will be chosen.</p> <p>_____</p>		2
<p>11. In the space below, complete the Venn Diagram with the number of members for each set in the appropriate place.</p> <p>Twenty-seven students were surveyed about their laptop (L) or iPad (P) use.</p> <p>iPad users = 13</p> <p>Laptop users = 17</p> <p>iPads only = 6</p> <p>Neither iPads/Laptops = 4</p> <div data-bbox="560 1299 1329 1805"> </div>		4

12. Teachers were surveyed to find out their travel plans. The results were:

5

	Going to Darwin	Not going to Darwin	Total
Going overseas	15	55	70
Not going overseas	47	3	50
Total	62	58	120

How many teachers were:

a) Not going overseas? _____

b) Going overseas? _____

c) Going to Darwin? _____

d) Not Going overseas or Darwin? _____

e) Going overseas or going to Darwin or both? _____
