3.1	Scatter Graphs 1
3.2	Scatter Graphs 2
3.3	Positive Coordinate Grid
3.4	Plotting Points
3.5	Temperatures
3.6	Negative Numbers
3.7	Coordinate Grid
3.8	Path of Snooker Ball
3.9	Regular Polygons
3.10	Plotting Polygons
3.11	Conversion Graphs

- (a) Who is the tallest and how tall is she?
- (b) Who is the youngest and how old is she?
- (c) How much taller is Rebecca than Emma?
- (d) How much younger is Sarah than Samantha?
- (e) Is it true that older people are taller?

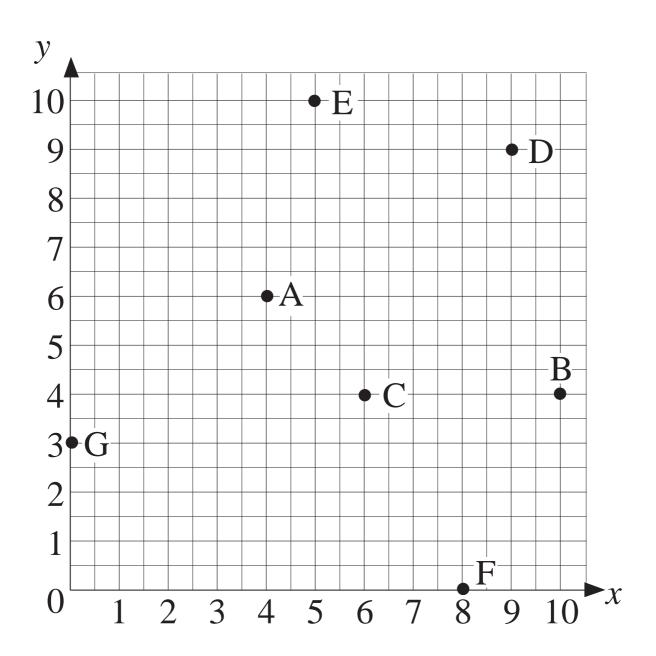

Plot the data as points on the graph below.

Competitor	Judge 1	Judge 2
Jane	4	5
Nishi	6	3
Julie	8	9
Andrea	2	1
Veronica	5	4
Chiori	3	2

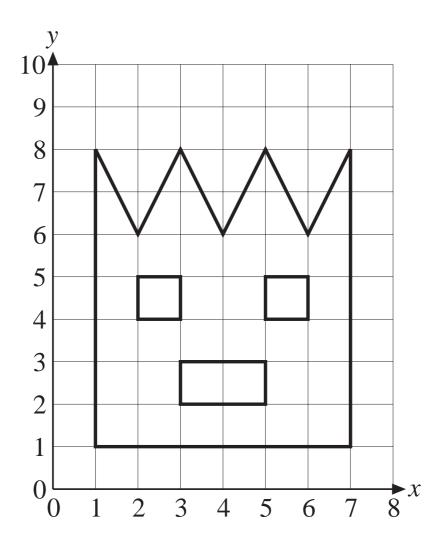

The two scores are added together to give a total and the winner.

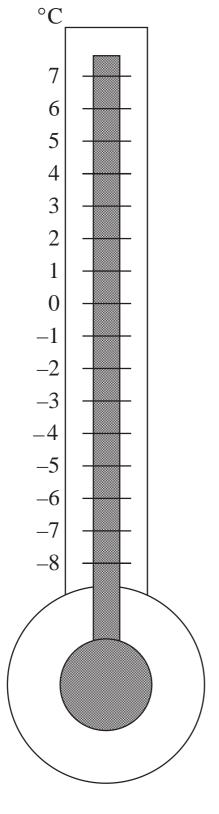

- 1. Who has the highest total?
- 2. Who came second?

- 1. What are the coordinates of the points marked?
- 2. Plot the points with coordinates H (10, 10), I (4, 0), J (3, 10), K (0, 9), L (5, 5).

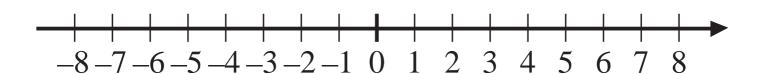

Tell somebody (who cannot see it) how to draw this picture.

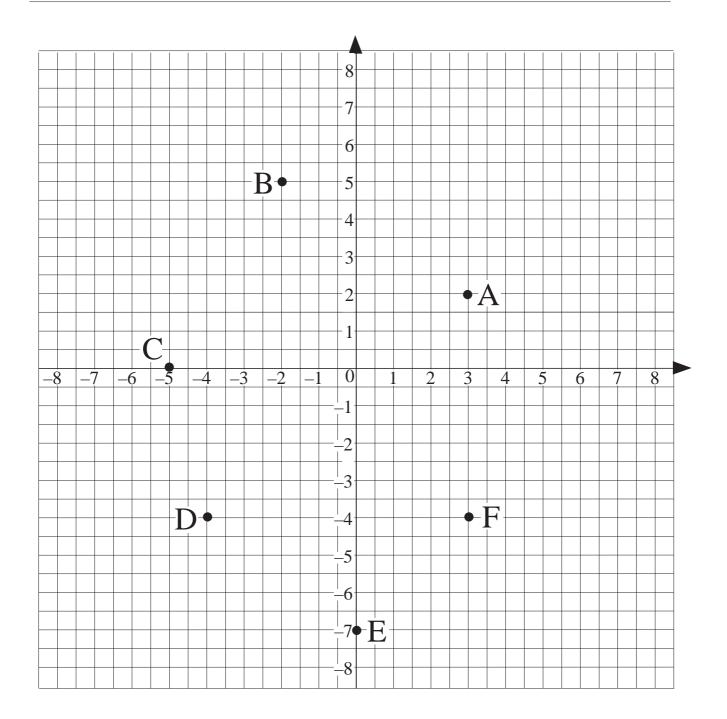

What temperature is:

- (a) 3 °C colder than 7 °C
- (b) 8 °C colder than 3 °C
- (c) 3 °C warmer than 2 °C
- (d) $8 \,^{\circ}\text{C}$ warmer than $-5 \,^{\circ}\text{C}$
- (e) $5 \,^{\circ}$ C warmer than $-6 \,^{\circ}$ C
- (f) 10 °C colder than 6 °C
- (g) $5 \,^{\circ}$ C warmer than $-7 \,^{\circ}$ C
- (h) $5 \,^{\circ}\text{C}$ colder than $-1 \,^{\circ}\text{C}$
- (i) $5 \,^{\circ}\text{C}$ warmer than $-3 \,^{\circ}\text{C}$
- (j) $3 \,^{\circ}\text{C}$ colder than $-4 \,^{\circ}\text{C}$

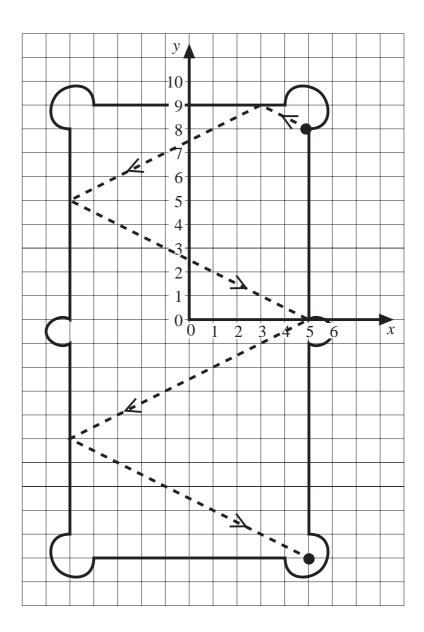

- 1. What number is less than 2?
- 2. What number is 3 less than -1?
- 3. What number is 2 more than -5?
- 4. What number is 3 less than -2?
- 5. What number is 10 less than 2?
- 6. Make each statement true by using the symbol < or >;
 - (a) $-1 \mid -5$ (b) 5
- - (c) 4 -8 (d) 1

Coordinate Grid

- 1. What are the coordinates of the points marked A to F?
- 2. Plot the points with coordinates G (0, 5), H (-4, 7), I (-3, -6), J (0, -5) K (6, -6), L (-1, 1)

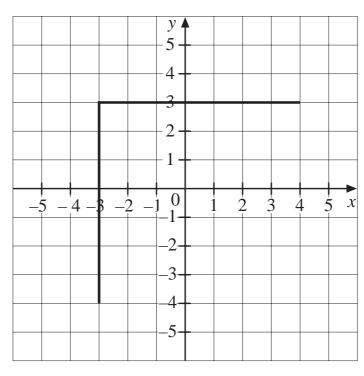

What are the coordinates of:

- (a) the point where the snooker ball starts to move,
- (b) the point where it rebounds from the side of the table for the first time,
- (c) the points where it rebounds from the side of the table for the second, third and fourth times,
- (d) the point where it falls into the pocket.

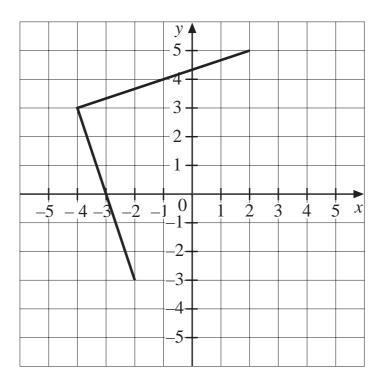

No.of sides	Name	Regular shape
3	Triangle	
4	Square	
5	Pentagon	
6	Hexagon	
7	Heptagon	
8	Octagon	
9	Nonagon	
10	Decagon	

What are the coordinates for the missing corner of each square?

(a)

(b)

Conversion Graphs
